

ARTESCA Delivery Training

*Get the skills you need for
successful ARTESCA installations*

This **fee-based**, remote training will help you understand ARTESCA and validated designs, deploy ARTESCA in customer environments, access ARTESCA UI and documentation, and manage users, permissions and data access configuration.

Prerequisites

Attendees must have:

- Basic knowledge of Linux systems, networking and storage management
- Familiarity with S3 protocol
- Experience working with Veeam and/or similar storage and backup third-party solutions

This training experience
is **purchased directly** from Scality.

To request a quote, please email
sales_operations@scality.com or your
regional Scality channel contact.

What you'll learn

Training will be delivered on the latest ARTESCA software and will demonstrate how to install on single or multi-server systems. Upon completion, you will know how to deliver the ARTESCA software appliance onto any industry standard storage hardware as well as deliver the ARTESCA hardware appliance.

Understand ARTESCA

ARTESCA benefits, features,
use cases and architecture.

Deploy ARTESCA

Install on single or multi-server
system. Deploy software or hardware
appliance.

Administer ARTESCA

Access the user interface and
documentation, manage users,
permissions and configure
applications to access the system.

Agenda highlights

Overview

- ARTESCA benefits, features and positioning
- Use cases
- Architecture

Deployment

- Prerequisites
- Installation (hands-on)
- Administration and app configuration

Administration

- Admin roles and privileges
- User management
- App configuration

What happens after certification?

Once you've passed the test at the end of the training course, you buy the first installation, which Scality performs in the presence of your engineer.

For the second installation, no payment is required – your technician performs the install with active support from Scality.

From the third installation onwards, you are completely autonomous.
